PASTRIES

Assortment of daily pastries including freshly baked scones, thick cream and homemade preserves

SANDWICHES

Egg salad, cucumber-mint, and smoked salmon

BLACK TEAS

EARL OF GREY

Steep 3–5 minutes

A blend of teas from Keemun and Yunnan provinces. The mixture is aromatized with bergamot. A refreshing tea with a hint of citrus.

GREEN TEAS

ORGANIC SENCHA

Steep 2–3 minutes

The emperor of green teas, hand picked, deep steamed, and carefully dried right after harvesting, in traditional Japanese style. This organic sencha tea will make any day feel like a beautiful spring day. A delicately sweet, herbaceous aroma emanates from the long, flat, naturally dark emerald tea leaves. The medium-light body of its infusion results in a slightly sweet flavor that endures long after you're done sipping the tea. It is subtly balanced, sweet and salty, with a flavor profile reminiscent of fresh cut grass and seaweed. Sencha is a steamed tea, made from freshly picked leaves, and is therefore rich in Vitamin C. This is a perfect green tea to drink in the afternoon, as the tasting experience will make you feel simultaneously relaxed and refreshed.

WHITE TEAS

ORGANIC PURITY

Steep 2–3 minutes

White teas are the least processed of all teas. They release the least amount of caffeine (5–10 milligrams per 8 oz. serving) and are the highest in antioxidants. White tea is therefore the perfect meditative aid: it acts as a mild stimulant, without causing insomnia or nervousness. These pure white tea leaves from Guangxi, China, steep into a light-yellow, smooth liquor and impart only the lightest buttery sweetness with a slight apricot fragrance.

HERBAL TEAS

ORGANIC ROOIBOS

Steep 6–7 minutes

Delicate in flavor, this tea's most present aroma is the pure bourbon vanilla originated from South Africa. The ideal tea for an idyllic moment. Without theine but with natural C vitamin.

ORGANIC HIBISCUS PETAL

Steep 6–7 minutes

Organic hibiscus flower tea steeps into a deep red herbal infusion that delivers a tart and exotic flavor, reminiscent of fresh cranberries. Vastly grown throughout the tropics and subtropics of the world, hibiscus is a natural source of Vitamin C and antioxidants and has been used to help manage minor hypertension. This is a beautifully refreshing tea, hot or cold brewed — a perfect beverage for healthy hydration year-round.

RED CHAI

Steep 6–7 minutes

This strong spiced chai kicks the cold away with the season's boldest flavors: red rooibos, cinnamon, ginger, cardamom, chai spices and a kiss of vanilla come together in this complex yet balanced herbal chai tea. Naturally caffeine-free and high in antioxidants and minerals, Red Hot Chai's rooibos base provides health benefits and a mild honey sweetness to compliment the bold flavors of a traditional masala chai.
